DETAILED ACTION

EXAMINER'S AMENDMENT

EX. Amdt 10/03

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Patrick M. Boucher on 10/10/2003.

The application has been amended as follows:

IN THE CLAIMS:

In claim 10, line 1, after "plate", have inserted "within a substrate processing chamber". ✓

Have cancelled claims 18-20, 22-39, 41-45 and 49-50. ✓

Allowable Subject Matter

Claims 1 and 3-11 are allowed.

The following is an examiner's statement of reasons for allowance:

A substrate processing chamber including a transformer-coupled plasma generator plate disposed within the chamber, the plate having a plurality of transformer core within the plate and a plurality of through holes forming conduits from a first side of the plate to a second side of the plate, wherein

Art Unit: 1763

a first of the conduits passing through a first transformer core and a second of the conduits not passing through a transformer core.

Neither of the prior art of the record teaches or suggests a transformer-coupled plasma generator plate disposed within the chamber, wherein a first of the conduits passing through a first transformer core and *a second of the conduits not passing through a transformer core.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
